OBJECTIVE

Seeking a full time position that will allow me to grow my skills as a software developer. As a hard-working and self-motivated graduate in computer science, I have ongoing work experience in quality assurance, front end and back end development.

EDUCATION

University of Texas - Austin Austin, TX
Bachelor of Science – Computer Science (GPA: 3.56) 2014 - Present
Projected graduation date: May 2018

EXPERIENCE

Cisco Systems Austin, TX
Software Engineer Intern June 2017 – August 2017

- Integrated Swagger Codegen, allowing the generation of SDKs in over 40 different languages
- Developed functionality to support the parameterization of REST API calls
- Designed features that allow for the processing of polymorphic JSON objects

American Express New York, NY
Software Engineer Intern June 2016 – August 2016

- Developed software to run multiple Android applications on remote servers in parallel
- Automated mobile and web software testing using Selenium
- Implemented a framework for testing mobile web applications using Appium

Active Power Austin, TX
Software Developer Intern October 2015 – May 2016

- Implemented a multilingual interface for touchscreen UI in JavaScript, HTML, and CSS
- Developed UI controls in Java for uninterrupted power supply systems
- Maintained embedded systems overseeing power flow through UPS units using C

TECHNICAL ABILITIES

- Languages: Java, C, Assembly, HTML, CSS, Javascript
- Operating Systems: Linux, Windows, Mac OS X
- Software Tools: Eclipse, Selenium, Visual Studio, JCreator, jEdit, Adobe Photoshop

PERSONAL INTERESTS

- Performer in a successful improv theater troupe
- Avid Taekwondo and Brazilian Jiu Jitsu practitioner
- Active member of the UT Yoga Club, Austin Zen Meditation Center and Longhorn Circus Performers group
